

The diagram shows a grid of boxes representing elements. The first three columns are labeled C84, C69, and C64. The next four columns are labeled Y, Pb, Pr, and M. The atomic numbers 238, 54, 59, and 57 are written below the boxes in the fourth, fifth, sixth, and seventh columns, respectively. The boxes are arranged in a grid with some boxes empty and some containing the element symbols.
